PROFESSIONAL SUMMARY

Senior Product & UI/UX Designer with 12+ years of experience delivering human-centred digital experiences across web, mobile, e-commerce, and enterprise (B2B/SaaS) platforms. Expert in UI/UX design, UX research, interaction design, product design, design thinking, and UX strategy — skilled at transforming complex business problems into simple, scalable, mobile-first interfaces that drive engagement, conversion, and brand loyalty. Proven collaborator in Agile/Scrum environments, partnering with cross-functional teams across retail, e-commerce, healthcare, education, and financial sectors.

CORE SKILLS

UI/UX Design: Website Design, Mobile Design, Mobile-First Design, E-commerce UX, Interaction Design, Microinteractions, Visual Design, A/B Testing

Product Design: Applications & Dashboards, Wearable App Design, Human-Machine Interface, Design Systems, Design Thinking, User Flows

UX Research: User Research, Usability Testing, Design Audits, Heuristic Evaluation, Competitor & Market UX Analysis, Personas, Behavioural Analytics

UX Strategy: UX Mapping, Journey Mapping, UX Workshops & Training, Information Architecture, Task Flows, Sprint Planning

AI & Data UX: AI-First Experience Design, LLM Workflow Design, Predictive UX, Conversational UI (Chat/Voice), Generative AI Prototyping

Accessibility: WCAG 2.1 Compliance, Inclusive Design, Accessibility Audits

Collaboration: Cross-functional Teams, Stakeholder Management, Agile/Scrum, Jira, Asana

Tools: Figma, FigJam, Miro, Adobe XD, Sketch, Photoshop, Illustrator, Adobe Creative Suite

EXPERIENCE

Senior Product Designer — Upstream GS

Jun 2020 – Present

Remote (Full-time) — Imagility SaaS Platform: AI-powered B2B immigration & legal workflow product

- Led end-to-end UX transformation of the Imagility B2B SaaS platform across 3 product lines — covering UI/UX design, IA redesign, dashboard overhauls, and interaction design — boosting user engagement by 80% YoY.
- Conducted deep UX research using design thinking frameworks: usability audits, heuristic evaluations, persona development, and behavioural journey mapping — feeding insights directly into Agile sprint planning and product strategy.
- Built scalable, AI-ready design systems adopted across 4+ product teams, ensuring cross-platform consistency, mobile-first coverage, and development efficiency.
- Designed predictive AI workflows, smart suggestion features, and user flows using data-driven UX insights — improving operational decision-making efficiency.
- Led A/B testing initiatives on key onboarding and dashboard flows, iterating designs based on quantitative results and reducing user drop-off.
- Collaborated cross-functionally with PMs, developers, and marketing in Agile/Scrum ceremonies to shape product direction and deliver pixel-perfect, WCAG 2.1-accessible interfaces.
- Owned end-to-end branding and promotional activities — spanning website design, marketing landing pages, and event collaterals — ensuring consistent brand identity across all digital and physical touchpoints.

Senior UI/UX Designer — Wipro

Aug 2019 – 2020

Bangalore (Contract)

- Redesigned the internal MyWipro enterprise platform for 200,000+ employees, improving usability, visual clarity, and task completion rates at scale.
- Delivered pixel-perfect enterprise UI fully aligned with WCAG accessibility guidelines, reducing accessibility-related support tickets.
- Introduced scalable UI component libraries and systemised design patterns, cutting design-to-dev handoff time across enterprise teams.

Senior UI Designer — Vtrio Solutions

2012 – 2019

Infopark, Kochi (Full-time)

- Designed apps and websites across media, real estate, food, and healthcare industries — delivering 30+ projects over a 7-year tenure.
- Owned the full design lifecycle: wireframes, IA, user flows, task flows, prototypes, and high-fidelity mobile-first UI.
- Led stakeholder management and delivery timelines for clients including Variety Insight, Franklin's Friends, HighRoad Solution, and Email Answers.
- Conducted competitor and market UX research to identify gaps and differentiate client products.

KEY ACHIEVEMENTS

- 80% YoY increase in user engagement through improved IA and dashboard redesign on a live B2B SaaS product.
- Designed AI-powered dashboards with predictive alerts and smart workflow automations — enabling data-driven UX at enterprise scale.
- Built conversational UI frameworks for LLM-powered interactions, enabling scalable AI-driven user experiences.
- Improved decision-making pipelines using behavioural analytics and AI-driven UX insights across multiple product teams.
- Delivered UX projects across 7+ industry verticals — e-commerce, healthcare, real estate, media, food, financial, and corporate — over 12+ years.
